10.24.194 Violation of Conditions of Minor’s School License.

(1) Driver’s license issued for travel to and from school. The school board shall develop and adopt a policy establishing the criteria that shall be used by a school district administrator to approve or deny certification that a need exists for a license. The student may appeal to the school board the decision of a school district administrator to deny certification. The decision of the school board is final. The driver’s license shall not be issued for purposes of attending a public school in school district other than either of the following:

(1) The district of residence of the parent or guardian of the student.

Evidence that an open or unsealed receptacle containing an alcoholic beverage, wine, or beer was found during an authorized search in any compartment or any unlocked portable device of the motor vehicle while it's upon a public street or highway is evidence from which the court or jury may infer that the driver or passenger(s) intended consume the alcoholic beverage, wine, or beer while upon the public street or highway if the inference is
